World Book Day Inspired Art – Blackbirds Week 7

We have been thinking about books this week! I hope that you have been able to think about **the sorts** of books that you like and **why** you like them? A very important part of any non – fiction book are the **characters.** They are often the reason why we like a book so much. Maybe we can **identify** with the characters a bit. For example do you love Dogman because you think he is brave and funny like you? Maybe you keep reading Tom Gates because you think he looks like you and lives with a family like yours?

Your Art project this week is to become your favourite character and produce a piece of art where you represent (show) yourself as your favourite book character!

You MUST – create a piece of Art that shows you as your favourite character.

You SHOULD – use materials you have at home, think about what your favourite character is doing and then represent that - as you!

You COULD - get really creative, use a photo of yourself to add to a picture of your character OR dress up like your character and then create a still life image of them in action!
