

Week 4- Blackbirds - Home Learning Weekly Overview

Hello Blackbirds! We hope you are well? It was great to speak to some of you on the telephone last week. We are so proud of you all for trying your best. Remember to join in the discussions on our e-schools class page, you can let everyone know what you have been doing. Mrs James is going to be adding some examples of your excellent work so that we can celebrate it properly as a class. I was wondering…..What do you all do to treat yourself when you have completed all your home learning for the day? Maybe some extra time to watch some TV, do some model building, play in your garden or read a special book?

It is another Monday and that means some new topics for our learning for the last few weeks of term. In English we are going to be reading and writing some explanation texts – explaining how birds can fly!

In Maths you are going to be reading measurements and measuring in cm and mm and working out perimeters.

I like both of these new topics because you can apply them to real life really easily! Watch some birds from your window, hopefully you will see them doing a bit of flapping and gliding. If you have a garden or a green space near you – why not have a walk to see if you can see some birds flying. What else do they do? I will include a birdwatch checklist in this week's home learning and you can start to make a record of which birds you see, where they were and what they were doing…..

Note to parents – I have included a You Tube link in the weekly overview. Please be aware that the school does not endorse any of the adverts that you will find on You Tube. You can skip ads quickly. If you have any questions please do let me know.

	Monday	Tuesday	Wednesday	Thursday	Friday
Maths-.	Watch the video: https://classroom.thenational.academy/lessons/measuring-lengths-to-the-nearest-cm-or-mm-65k64d Task –Worksheet - Accurately measure strips of paper	Watch the video: https://classroom.thenational.academy/lessons/measuring-length-and-drawing-lines-of-a-given-length-in-mixed-units-69j3ed Task – Worksheet - Measure length and draw lines	Watch the video: https://classroom.thenational.academy/lessons/making-appropriate-estimates-of-length-by-comparing-69hk8c Task – Worksheet - Make appropriate estimates of length	Watch the video: https://classroom.thenational.academy/lessons/length-and-measurement-application-ccr68e Task - Worksheet – Apply length and measurement knowledge	Watch the video: https://classroom.thenational.academy/lessons/to-calculate-perimeters-of-2d-shapes-in-cm-and-mm-cnj3ae Task – Worksheet – Calculate the perimeter of 2D shapes in cm and mm

English	Inroduction – Watch the lesson https://classroom.thenational.academy/lessons/to-listen-to-an-explanation-6nj6ac Task – Spellings Practise and Vocabulary learning	Introduction - Watch the lesson https://classroom.thenational.academy/lessons/to-tell-an-explanation-from-memory-6ct3ec Task – To complete a flowchart to help tell an explanation	Introduction – Watch the lesson https://classroom.thenational.academy/lessons/to-explore-cause-and-effect-6rwkgt Task – To complete the table to explain cause and effect.	Introduction– Watch the lesson https://classroom.thenational.academy/lessons/to-use-subordinating-conjunctions-c9k3ed Task – Use the subordinating conjunctions in sentences	Introduction –Watch the lesson https://classroom.thenational.academy/lessons/to-summarise-explanations-6gv3at Task – Write an explanation of how and why birds fly
Topic	Please go to your year group class for Topic and Science. If you have any questions let me know and I will be able to help you out. You have been doing a fabulous job of following some of the Owl and Woodpecker work. Year 5 – Owls. Year 4 – Woodpeckers. You can choose to do either the activities below or the PE and Art suggested by Miss Thompson for Owl class.				
Physical Education	Yoga adventures – Use the You Tube link to follow Jamie on a Yoga Adventure to the jungle with Stezzi the parrot. Get ready to flap your wings! https://www.youtube.com/watch?v=LIBz0IdOFiQ You will be moving from one yoga pose to another quite quickly. This is a 14 minute practice which you could try and do at different time of day – maybe once in the morning and once later in the day. Is there anything that you notice about your energy levels? Does your body need an energy boost in the morning or afternoon?				
Other subjects	**Art** linked to English – Complete the Art sheet on How to draw a gliding bird. You may feel inspired to start to create a larger piece of art work including several birds gliding… email us your work and we can include it on our class pages. **Lego** (or other model building if you do not have Lego at home) Can you make a small model that moves? EXPLAIN to someone at home how it works. **Outdoor activity** – Be like Professor Birdbrain and become a Twitcher! That is the name for a Birdwatcher. Which of the birds on the sheet can you spot from your window or from your garden? Whereare the birds doing? Keep a record.				

Feedback – We would like to see some of your work when you have completed it so that we can give you feedback and it will help us to plan for you. This week we would like to see your Art work, at least one piece of English and one piece of Maths.

Here are some links that you might need if you do not already have them.
